

## CITY OF ROUND ROCK HEALTH AND SAFETY POLICY STATEMENT

The success of the City of Round Rock Safety Program depends upon the efficient and effective use of resources to maintain high quality services for the citizens of our community. Our most important resource is our employees and, to protect this resource, we are committed to providing a safe work place for all employees.

The City of Round Rock will strive to prevent accidents, incidents, injuries, occupational illnesses and losses through active participation of employees. The City will conduct all operations in such a manner to avoid harm to the health of employees.

The City will plan for operations, establish safe practices and provide training in a manner consistent with the best applicable practices to minimize risks and potential hazards to employees, citizens and our resources. Working safely and in accordance with established safety policies, is an absolute requirement for all employees, supervisors and managers.

  
Laurie Hadley  
City Manager
