

# NIGP Commodity Code Lookup Instructions

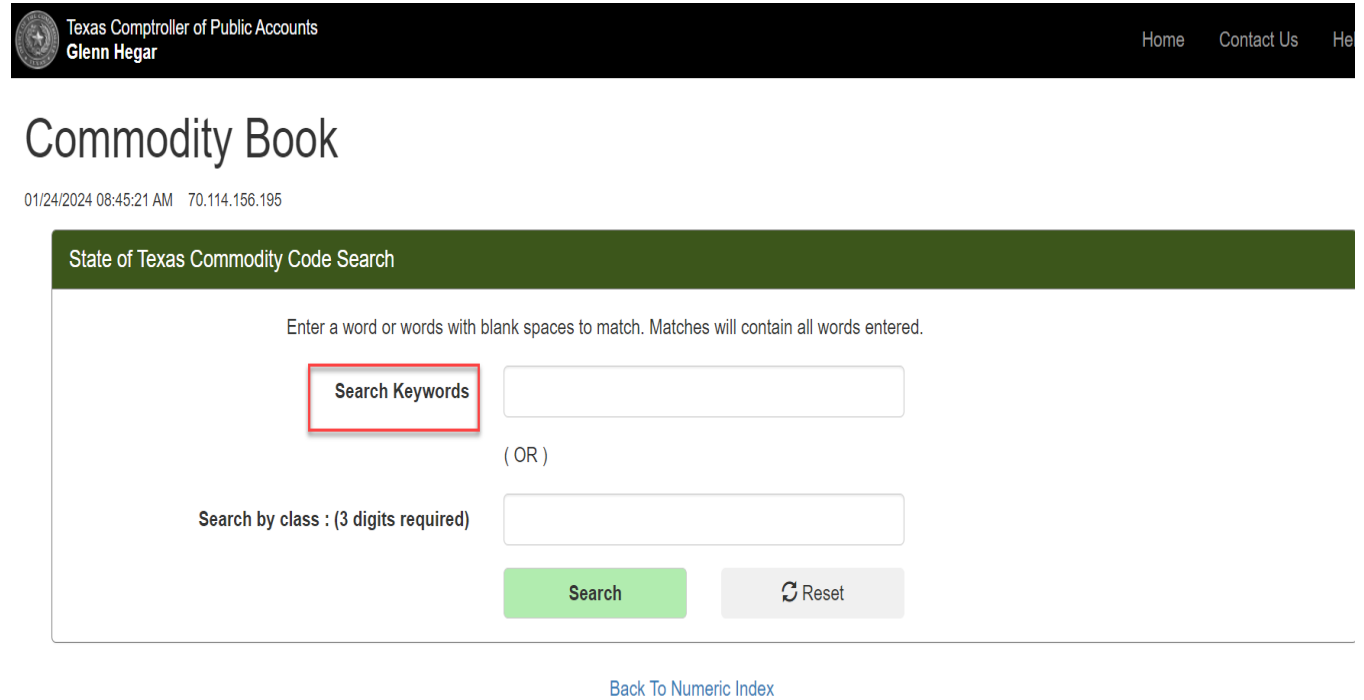

---

At least one 5-digit commodity code for the purchase of goods or services must be identified because the City uses the NIGP 5-digit class-Item commodity code system in our procurement software. The commodity code is also used to identify Hub Vendors registered with the State of Texas.

To identify a commodity code, click the link to open the State of Texas NIGP Commodity Book.

Use the “Search Keywords” field to identify the 3-Digit Class, and 2-Digit Item. All Services are listed under the 900 Class, all other class codes are for Goods.

The screenshot shows the header of the Texas Comptroller of Public Accounts website with the name Glenn Hegar and navigation links for Home, Contact Us, and Help. Below the header is the title "Commodity Book" and a timestamp "01/24/2024 08:45:21 AM 70.114.156.195". The main content area is titled "State of Texas Commodity Code Search" and contains a search form. The form has a text input field labeled "Search Keywords" (highlighted with a red box), a text input field labeled "Search by class : (3 digits required)", and two buttons: a green "Search" button and a grey "Reset" button. A "( OR )" label is positioned between the two input fields. A link "Back To Numeric Index" is located below the search form.

Note that more than one commodity code may be identified for the pending purchases to broaden the vendor search. Once the commodity code(s) are identified they can be used to search for Vendors using the City of Round Rock Vendor Search and The State of Texas Centralized Master Bidders List – Hub Directory Search (CMBL).
